Now That's Service

With more than 2,500 students to transport safely each day, **Greg Kelley**, transportation manager for **Lancaster City Schools** in Lancaster, Ohio, has a big job. Safety of the students is paramount. That's one reason he's proud that his district has a near-flawless safety record.

"We haven't had a cited accident or injury for years," Greg said. "We've got a seasoned group of drivers here, which helps. It also helps to have reliable equipment."

Greg's fleet of 38 Thomas Built buses covered more than 400,000 miles last year alone, taking students to and from school, as well as field trips and athletic games. He's been happy with the performance of the buses, which accounts for the fact that his fleet is 100 percent Thomas Built. "These buses are reliable, easy to operate and simple to maintain," he said.

Lancaster City Schools has been working with Thomas Built dealer **Edwin H. Davis and Sons** for more than 10 years. Greg and his two mechanics, **Butch McElfresh** and **Shawn Venrick**, rely on Davis and Sons for training, service and parts.

"Our Thomas Built dealer is just fantastic in terms of service."

"Davis and Sons is just fantastic in terms of service. They offer us free training on new technology. And, we can always rely on their mechanics when we need them. We do a lot of work with **Jake Gannaway** at Davis, who is one of the brightest and most knowledgeable mechanics I know," Greg said. "Butch and Shawn are good at what they do, and they're very busy with our fleet and other vehicles the district owns. Jake can always get us the solutions we need quickly."

Davis and Sons goes above and beyond for them, according to Greg — and they do it fast.

"We had an issue where the welding of the seats was coming apart right before a state inspection. Davis sent crews to our location to fix more than a hundred seats, so it was a lot of work, but they came here and got us squared away quickly. We ended up being rated one of the best districts in central Ohio," Greg said. "If any type of warranty work or issue comes up, they'll just come to our shop. We know we can always count on them in a pinch."

Thomas Built Buses and Edwin H. Davis and Sons are proud to work with Lancaster City Schools. You're the best at what you do — our hat's off to you!
